Oliva Serie V Liga Especial Belicoso

■ Oliva Cigar Co., not to be confused with Oliva Tobacco Co., makes its headquarters in Miami, Florida, and rolls its cigars in Nicaragua. The company was little known in the cigar business only a few years ago, but through persistence, patience and consistently putting out a quality product the Olivas have risen to the forefront of cigar production. Originally known for making bargain brands, the company now has cigars for the most sophisticated palates. This is the fifth year one of its cigars has made our Top 25 list. The Serie V Liga Especial Belicoso features superb construction, powerful, full-bodied flavors of meat and nuts and a balancing sweetness. The cigar is also very reasonably priced, selling for less than \$6—the second most affordable cigar on the Top 25 list and the best bargain in our Top 10.
